

End of the day Report

Name: Mark Andrie D. Datus	
Date: 05/05/2026	Position: Web Developer Intern

For Developers:

Kindly include a screenshot of the user interface and provide the relevant code snippet for the feature or task you are currently working on. This will help ensure proper documentation, transparency, and easier review of progress.

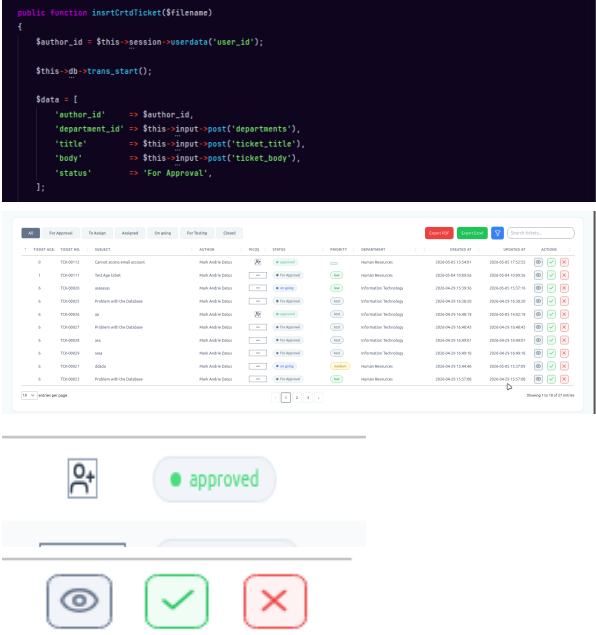

For QA:

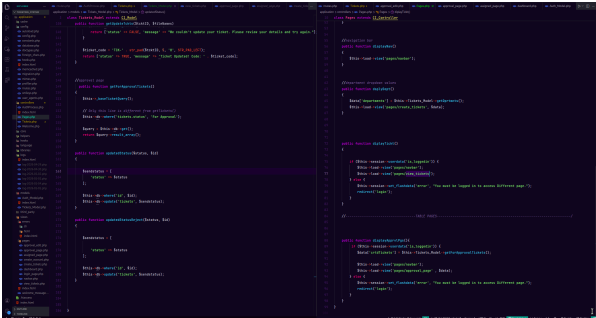

Please indicate the specific module you are currently testing and provide the status of the related test cases (e.g., Passed, Failed, In Progress). Additionally, list all blockers encountered during testing and attach the corresponding file link in the description for reference.

This will help maintain clear tracking, improve collaboration, and ensure timely resolution of issues.

Note:

When creating or responding to emails, please ensure that only one email thread is used to facilitate better tracking and efficient monitoring of tasks.

Activity	Description
	Successful - Implement approval workflow and UI enhancements - Set default ticket status to "for approval" upon creation - Add 'Approve' and 'Reject' buttons to the For Approval page - Replace default HTML title attribute with custom designed tooltips - Update list sorting to conditionally display an 'Assign' button for Approved tickets (shows dash otherwise) On progress - Redesign ticket view page and optimize database queries - Roll out a new design layout for the ticket view page. - Apply unified condition checks for all page actions. - Clean up model logic by reusing one standard select query statement instead of duplicating code.

	CODE SNIPPETS - Model and controllers - Route and Pages
